

Lifespan Speech And Swallow Therapy, PLLC

Overview: We diagnose and treat speech, language, and swallowing problems for individuals across the lifespan via teletherapy and in person. We plan and administer educational and functional programs for individuals with deficits in the areas of communication, cognition, voice, hearing and swallowing.

Vision: To improve our client's quality of life by providing a functional communication system and/or safe swallowing strategies.

Mission: We exist to prevent, evaluate, diagnose and treat speech, language, social communication, cognitive-communication and swallowing disorders in children and adults to improve their quality of life.
